

Food for **special** medical purposes

# Energast

1

the best  
researched  
butyrate  
on the market

**Energast® safety and efficacy proven by:**

- » **6 clinical studies** involving more than **3.300 patients**,
- » **10 years** of clinical research in IBS, IBD, diverticular disease, SIBO, diabetes type 2,
- » continued reasearch in **gastrointestinal** and **metabolic** disorders.

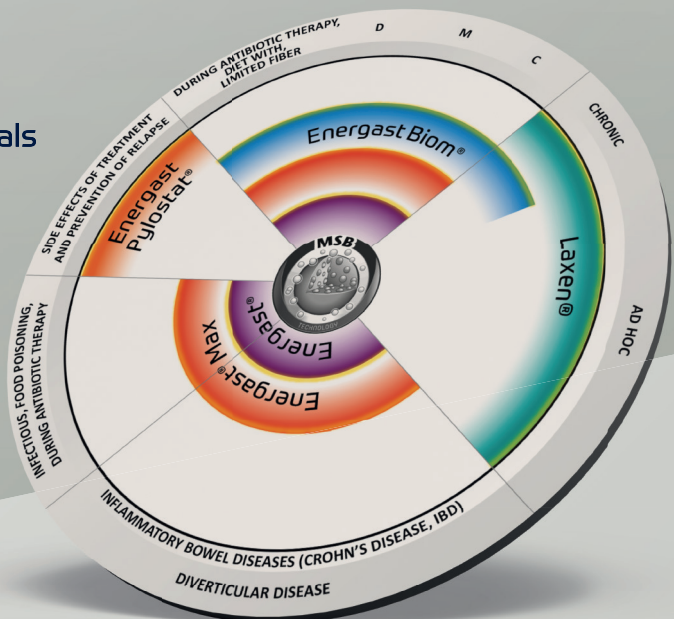

# Energast® Line is designed to compensate butyric acid deficiency in the intestines by delivering butyrate in a proprietary MSB® form.

**MSB®** original technology, ensuring sustained and targeted release of butyrate along the entire length of the intestines, is protected by European patent.

The high efficacy and safety of products using **MSB®** butyrate has been confirmed in 6 clinical trials involving over 3.300 patients in:

- » IBS,
- » IBD,
- » diverticular disease,
- » type 2 diabetes with gastrointestinal disorders,
- » SIBO.
